

Flux Editor Filemanager

Feature sheet - a sample document for the live demo

- Insert images from Laravel Filemanager into the Flux Pro editor
- Link to files such as this PDF with the paperclip button
- Resize images to 25%, 50%, 75%, 100% or a custom width
- Align images left, center or right
- Edit alt text, title, classes and styles with a double click
- Drag and drop or paste image files straight into the editor

`composer require darvis/livewire-flux-editor-filemanager`

`php artisan flux-filemanager:install`
